User Testing, User Interviews
JavaScript, Coffeescript, jQuery
Git, Github, Heroku
NodeJS, AngularJS

EXPERIENCE

Sept 2015 – Present. San Francisco, CA

Wrap Media – UI/UX Designer & Engineer

Created micro experiences for the mobile web “aka. Wraps” on the Wrap platform utilizing Sketch, Adobe CC, HTML, CSS and JS. Planned and designed major features that were integrated into the product. Worked as a developer and designer on the website.

March 2015 – May 2015. San Francisco, CA

Perforce – UX Designer & Researcher

Applied Lean UX principles within a centralized design team via 1-week design sprints. Received & delivered rapid feedback through regular critique sessions. Utilized tools including Sketch, Adobe CC & Proto.io. Conducted generative research to gain insights on our product suite.

March 2015 – May 2015. San Francisco, CA

General Assembly – UXD Program

Covered best practices for User Experience Design during a 10-week immersive program. Created 5 projects in design teams by applying user-centered design principles.

Sept. 2014 – May 2015. San Jose, CA

Cisco – UI/UX Engineer

Member of a small team focused on creating a web application that utilized HTML, CSS and Javascript to allow our users to visualize traffic on their Wide Area Network. Our application was built with Backbone.js and utilized chart visualization libraries such as D3.

May 2014 – Sept. 2014. San Jose, CA

Cisco – Java Engineer

Member of mid-sized agile team working on the creation of WAN Orchestration Web API's. Worked with JAX-RS to create RESTful services. Also contributed to the product's developer site.

January 2012 – May 2014. Amherst, MA

People's Market – Co-Manager/Owner

Handled all aspects of running the business including, but not limited to, organizing shifts, facilitating meetings, addressing conflicts, running workshops and handling deposits.

Summer 2011, Summer 2012. Westborough, MA

MLSC Internship – Reflectance Medical

Intern at a “Start-Up” Medical Device Company working in the field of Mobile Device Health Monitoring. Conducted research in the lab, created scripts in Matlab and assisted in the company's first FDA submission.
